

'ONE NAME FOR SHIPPING SOLUTIONS'

**ONS LOGISTICS**

(INDIA) PVT. LTD.

International Freight Forwarders

## ABOUT COMPANY

ONS Logistics India Pvt Ltd. is an International Freight Forwarding and Custom House Agent with a worldwide network of representatives and alliances. We provide general and specialized logistic services utilising air, sea and land transportation. Suppliers from virtually anywhere in the world. We are managed efficiently by a team of well experienced and professionally qualified persons which provides innovative solution to a variety of logistic challenges. At ONS Logistics India Pvt. Ltd. we build our business around customer needs. Our main objective is customer satisfaction.

The most reliable and result oriented logistic services backed by on line track and tracking systems. We are providing complete visibility of shipment round the clock. We are totally dedicated to quality services and focus on cost control.

We also provide pre-shipment requirements as for a letter of credit requirement, export/import documentation, custom formalities for export/import, and carriage to part of departure (in case of exports) and to the final destination (in case of imports).

We are handling both LCL/FCL consolidation for various worldwide destinations and have developed good relations with reputed shipping lines like MAERSK, CMA-CGM, MSC, ONE, ZIM, HAPAG LLOYD, OOCL, COSCO, WAN HAI, EMIRATES, RCL, and others. We have the expertise to understand the nature and demands of your business and the services to support your entire supply chain with integrated end to end solutions.

We provide Sea and Air Freight services to overseas and vice versa, to our customers. Our office provides LCL, FCL and Break Bulk services for customers and worldwide counterparts. We are providing storage for import shipments from overseas, CFS/CY and consolidation service for export cargo. We provide all the essential services to assist customers in Customs Clearance.

We have been offering comprehensive freight forwarding services by air and sea freight to/from worldwide origins & destinations as well as real logistics (from the door at origin to the door at the destination). We have not only been offering our services but have also been providing marketing and industry inputs. Speed, economy and care are the priorities we live by. Whether your goods travel by sea, air, railway or road, ONS Logistics India Pvt. Ltd. watches for every single problem and deals with it successfully. Our excellent contacts with the government and semi-government organizations enable us to manage the formalities for the transportation of the goods, which saves our clients from tedious administrative hassles.

## OUR SERVICES

For each project, a team of experts taken from both our logistic and international transport unit analyze inventories, customer demographics and market characteristics to create the right logistics solutions for your business.

## STANDARD - CONTAINERS

Also known as general purpose containers, these can fit most of your common needs. A majority of the standard containers in ONS's fleet are made of steel. They are designed and constructed for transportation of general cargo on sea, rail and land and are able to withstand extreme temperatures ranging from -40°C (-40°F) to 70°C (158°F) without affecting their strength and water-tightness.

Please note that in certain exceptional cases, the containers operated by ONS may have specifications that differ from the descriptions above. Also, cargo in container must conform to the dimensional regulations and laws stipulated by the host country, thus payload capacity may be affected. For more information or assistance, please contact your local ONS customer service representative. For maximum cargo weight guidelines, please contact your local ONS customer service representative as these are container weight capacity and might exceed local State/Country legal cargo weight limits. For cargo weight guidelines in International Intermodal Containers for Transport on USA Highway System please

### 20' STANDARD STEEL CONTAINER

20' standard steel containers are closed weather-tight containers that are suitable for any general cargo. 20' standard steel containers operated by ONS have a payload capacity of up to 28,160 kg, close to the payload capacity of most 40' standard steel containers. This makes 20' standard steel containers especially suitable for high-density, heavyweight cargo.

In addition, 11 or more ONS standard garment hanger bars\* can be installed on most ONS-owned 20' containers. Forklift pockets\* are also available on almost all 20' containers.

Description	Metric	U.S.
Cubic Capacity	33.200 cubic meters	1,170 cubic feet
Payload (Weight)	21,850 kg - 28,160 kg	48,171 lb - 62,082 lb
Tare Weight	2,150 kg - 2,220 kg	4,740 lb - 4,894 lbb
Max Gross Weight	24,000 kg - 30,480 kg	52,911 lb - 67,197 lb
Internal Length	5.898 m	19'4"
Internal Width	2.352 m	7'9"
Internal Height	2.392 m	7'10"
External Length	6.058 m	19'10 1/2"
External Width	2.438 m	8'0"
External Height	2.591 m	8'6"
Door Opening Width	2.340 m	7'8"
Door Opening Height	2.280 m	7'6"
Lashing Rings	Five on each top and bottom rails, capacity 2,000 kg; Three on each corner post, capacity 1,500 kg	

### 40' STANDARD STEEL CONTAINER

40' standard steel containers are closed weather-tight containers that can be used to transport any general cargo. Most of ONS's 40' containers have a payload capacity of 28,760 kg with a gross weight of 32,500 kg. This exceeds the payload capacity of 26,760 kg (gross weight of 30,480 kg) required by ISO standards. Almost all 40' containers have a recess at the bottom called the gooseneck tunnel\*. 22 or more ONS standard garment hanger bars\* can be installed on most ONS-owned 40' containers.

Description	Metric	U.S.
Cubic Capacity	67.700 cubic meters	2,391 cubic feet
Payload (Weight)	26,760 kg - 28,760 kg	48,171 lb - 62,082 lb
Tare Weight	3,720 kg - 3,740 kg	8,201 lb - 8,245 lb
Max Gross Weight	30,480 kg - 32,500 kg	67,197 lb - 71,650 lb
Internal Length	12.032 m	39'6"
Internal Width	2.352 m	7'9"
Internal Height	2.392 m	7'10"
External Length	12.192 m	40'0"
External Width	2.438 m	8'0"
External Height	2.591 m	8'6"
Door Opening Width	2.340 m	7'8"
Door Opening Height	2.280 m	7'6"
Lashing Rings	Ten on each top and bottom rails, capacity 2,000 kg; Three on each corner post, capacity 1,500 kg	

## 40' HIGH CUBE STEEL CONTAINER

Description	Metric	U.S.
Cubic Capacity	76,400 cubic meters	2,700 cubic feet
Payload (Weight)	26,750 kg - 28,550 kg	58,974 lb - 62,942 lb
Tare Weight	3,730 kg - 3,950 kg	8,223 lb - 8,708 lb
Max Gross Weight	30,480 kg - 32,500 kg	67,197 lb - 71,650 lb
Internal Length	12.033 m	39'6"
Internal Width	2.352 m	7'9"
Internal Height	2.698 m	8'10"
External Length	12.192 m	40'0"
External Width	2.438 m	8'0"
External Height	2.896 m	9'6"
Door Opening Width	2.340 m	7'8"
Door Opening Height	2.585 m	8'6"
Lashing Rings	Ten on each top and bottom rails, capacity 2,000 kg; Three on each corner post, capacity 1,500 kg	

40' high cube containers are suitable for all general cargo transportation. They are almost identical to the 40' standard containers, except that they have more cubic capacity as they are one foot taller. Thus, 40' high cube containers are especially suitable for voluminous cargo. The ISO standard payload capacity is 26,760 kg with a gross weight of 30,480 kg. Most of ONS's 40' high cube containers have a payload capacity of 28,550 kg with a gross weight of 32,500 kg, which surpasses the ISO requirement. Almost all 40' containers have a recess at the bottom called the gooseneck tunnel\*. 22 or more ONS standard garment hanger bars\* can be installed on most ONS-owned 40' high cube containers.

## 20' & 40' OPEN TOP CONTAINER

Description	Metric		U.S.	
	20'	40'	20'	40'
Payload (Weight)	31,260 kg	31,260-40,050 kg	68,917 lb	68,920- 88,300 lb
Tare Weight	2,740 kg	2,600 - 2,820 kg	6,041 lb	5,732- 6,217 lb
Max Gross Weight	34,000 kg	30,000 - 45,000 kg	74,957 lb	66,140- 99,210 lb
Internal Length	6.040 m	12.054 m	19'10"	39'7"
Internal Width	2.230 m	2.230 m	7'4"	7'4"
Internal Height	2.230 m	1.955 m	7'4"	6'5"
External Length	6.058 m	12.192 m	19'11"	40'0"
External Width	2.438 m	2.438 m	8'0"	8'0"
External Height	2.591 m	2.591 m	8'6"	8'6"

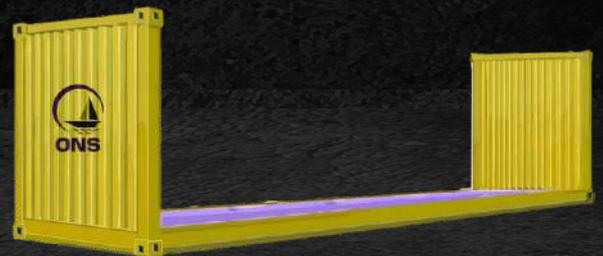

Open top containers are especially suitable for transporting overheight cargo, i.e. cargo taller than 2.54m (8'5"). They are available in two sizes: 20' and 40'. Cargo can be loaded by crane from the top-side. Over height cargo can also be loaded from the door-side since the door header can be swung open.

Numerous lashing rings are available on the four corner posts, top-side rails and bottom-side rails for securing the cargo. If the cargo needs to be protected from rain, tarpaulin sheets can be provided to cover the top of the container. Forklift pockets\* are available on many 20' open top containers. Gooseneck tunnels\* are available on most 40' open top containers.

## 20' & 40' COLLAPSIBLE FLAT RACK CONTAINER

Description	Metric		U.S.	
	20'	40'	20'	40'
Payload (Weight)	31,260 kg	31,260-40,050 kg	68,917 lb	68,920- 88,300 lb
Tare Weight	2,740 kg	2,600 - 2,820 kg	6,041 lb	5,732- 6,217 lb
Max Gross Weight	34,000 kg	30,000 - 45,000 kg	74,957 lb	66,140- 99,210 lb
Internal Length	6.040 m	12.054 m	19'10"	39'7"
Internal Width	2.230 m	2.230 m	7'4"	7'4"
Internal Height	2.230 m	1.955 m	7'4"	6'5"
External Length	6.058 m	12.192 m	19'11"	40'0"
External Width	2.438 m	2.438 m	8'0"	8'0"
External Height	2.591 m	2.591 m	8'6"	8'6"

Open top containers are especially suitable for transporting overheight cargo, i.e. cargo taller than 2.54m (8'5"). They are available in two sizes: 20' and 40'. Cargo can be loaded by crane from the top-side. Over height cargo can also be loaded from the door-side since the door header can be swung open.

Numerous lashing rings are available on the four corner posts, top-side rails and bottom-side rails for securing the cargo. If the cargo needs to be protected from rain, tarpaulin sheets can be provided to cover the top of the container. Forklift pockets\* are available on many 20' open top containers. Gooseneck tunnels\* are available on most 40' open top containers.
